

Dan Blossom
Marist College
Dr. Pablo Rivas
MSCS 630 Security Algorithms & Protocols
Homework 0
Due January 27th, 2019

1) Below is a screenshot of the Java Version installed on my laptop.

```
[blossom@archlinux ~]$ java -version
openjdk version "11.0.2" 2018-10-16
OpenJDK Runtime Environment (build 11.0.2+7)
OpenJDK 64-Bit Server VM (build 11.0.2+7, mixed mode)
[blossom@archlinux ~]$
```

2) Below is a screenshot of the Java compiler installed on my laptop.

```
[blossom@archlinux ~]$ javac -version
javac 11.0.2
[blossom@archlinux ~]$
```

3) Here is a screenshot of my github profile created with my @marist.edu account.

The screenshot shows a GitHub profile page for the user **dblossom-marist**. The profile includes a profile picture of a man wearing a yellow hat and sunglasses, a bio, and a status field. The main content area shows the user's statistics: 0 repositories, 0 stars, 0 followers, and 0 following. Below this, there is a section for popular repositories, which is currently empty. A contribution graph is displayed, showing 1 contribution in the last year. The graph is a calendar grid with a single green square in the bottom right corner (January 1st). Below the graph, there is a text box explaining the contribution graph and a link to read the Hello World guide.

Learn how we count contributions. Less More

This is your **contribution graph**. Your first ■ is for joining GitHub and you'll earn more as you make [additional contributions](#). More contributions means a darker green square for that day. Over time, your chart might start looking [something like this](#).

We have a quick guide that will show you how to create your first repository and earn more green squares!

[Read the Hello World guide](#)

4) Below is screenshot of “Clone or Download” button and the link in plain text.
